ABSTRACT

This resource tool, which consists of word lists based on consonant sounds and blends, extends the range of materials available to professionals who teach speech sounds to students. The alphabetical word lists are arranged with each consonant sound in initial, medial, and final positions. The blends or sound clusters for each sound follow in family groupings (i.e., /br/ initial, /br/ medial, rb medial/rb/final). They are listed under each consonant in the blend. The first letters of each heading are guides to the sounds (rather than the spelling) of words in the list. Sounds are indicated by English letters and phonetic spellings. Words are grouped by number of syllables to aid the student's progression from simple to complex, with words of one syllable appearing first. (JW)

PREFACE

30,000 Selected Words is a resource tool that provides words for teaching consonant sounds in the English language. It has been prepared for Communication Disorder Specialists, teachers in Special Education and ESL, regular classroom teachers, students, parents and professionals dedicated to the task of improving communication skills. The lists are comprehensive and varied enough to be used with children or adults.

Professionals who teach speech sounds to students use materials that facilitate teaching consonant sounds and blends. This volume extends the range of materials available by offering a large selection of words organized for easy use.

When professionals control each level of complexity, student success rate should be enhanced. The variables that control these levels may be the length of a word, the preceding or following sound, and the combination of blends or clusters within a word.

These alphabetical word lists are arranged with each consonant sound in initial, medial, and final positions. The blends or sound clusters for each sound follow in family groupings (i.e., /br/ initial, /br/ medial, /rb/ medial, /rb/ final). They are listed under each consonant in the blend (i.e., the /br/ blend will be found in the /b/ section as well as in the /r/ section).

The first letters of each heading are *guides* to the sounds of words in the list. They do not always represent the spellings of the words in the list. These letters are meant to help the reader who is not familiar with the International Phonetic Alphabet; the phonetic symbols are placed between slashes / / for those trained in the IPA.

The words are grouped by number of syllables in a word to aid the student's progression from simple to complex, with words of one syllable appearing first.

ACKNOWLEDGMENTS

Grateful acknowledgment is given to our consultants, Mrs. Jeanne Clark, M.A., C.C.C., Speech and Language Pathologist in Phoenix, Arizona, for her assistance and expert guidance, and Mrs. Suzanne Y. Guinn, M.S., C.C.C., S.P., Coordinator of the Speech Department, Fairbanks North Star Borough School District, Fairbanks, Alaska.

Special thanks to Marie Cunningham and Terry Callaghan for their aid and dedication in researching and typing this manuscript, and to typists Carol Pearlman and Meredith Boyd whose help made our task easier. Finally, our thanks to Ricky Wohl and to two great mothers, Hazel Frazer and Ethel Mintzer, for their valuable research assistance.

Other popular language-building materials from CSB—

Odd Jobs (1982)
Silly Sports (1982)

Here are two creative collections of action pictures to help develop concept formation and language skills. The 10 cards in *Odd Jobs* illustrate different occupations. Your students find the one "odd" item that doesn't fit. *Silly Sports* also contains 10 illustrated cards. Students look at each card to see "what's wrong" in the picture. These two assortments are ideal supplements for your language program.

Odd Jobs, #4613-Y	**$15**
Silly Sports, #4614-Y	**$15**

Idioms (1983)

Here's a unique and creative set of language cards for your entire caseload. These 48 picture cards offer effective stimulation for your school-age and adult clients. Each card illustrates the literal meaning of one idiom. These cartoon-style drawings present opportunities for language expansion and enjoyment.

#4611-Y	**$14.95**

Around the Home (1982)

Four brightly colored gameboards—with sets of pull-apart object cards—offer an enjoyable new format for language stimulation. Individual gameboards show everyday scenes in the kitchen, garden, workshop, and through the house. Each shows captivating cartoon characters engaged in common household activities that your students can talk about.

#4601-Y	**$19.95**

Communication Skill Builders

30,000 SELECTED WORDS

A must for every communication professional in school, hospital, clinic or office practice. This handy book is alphabetized and organized by initial, medial and final positions and into consonant clusters/blends. It includes medial and final sounds and blends not easily found in a standard dictionary and is arranged by number of syllables (1 to 5) in each word to aid the student's progression from simple to complex. There are lists for all spellings for each sound, and sounds are indicated by English letters and phonetic spellings.

The book is indexed in the upper corner of each page for easy flip-through use.
